ROCK SOLID

LEGAL FOR TRADE

Tailor-made Tough

The world's toughest weighing jobs demand a scale like no other. Rice Lake's RoughDeck® CS was born for the unique task of weighing dense industrial materials to Legal for Trade accuracy. For steel coils, castings, cable spools and more, see why RoughDeck CS is the first and only scale investment you will ever make.

- Off the shelf, or made to order
- Custom sizes and capacities
- Rail and track versions custom built to your specifications
- Above ground or pit mounting
- Specialty coil cradles and fixtures

The NTEP Certified RoughDeck® CS Coil Scale

Pack all the strength and substance of a SURVIVOR® truck scale into one tight little package and what do you get? The RoughDeck CS. Made by Rice Lake for the challenge of weighing massive steel coils and other dense material, the RoughDeck CS is tougher than a truck scale and can weigh with Legal for Trade accuracy.

Steel handling is the ultimate test for industrial equipment. The RoughDeck CS's tightly spaced steel I-beams, half-

inch thick top plate, and patented G-force self-checking mounting system make it the most solidly constructed scale on the market. And when it comes to extreme conditions, the RoughDeck CS takes a punch and comes back for more, delivering accurate results, day after day.

Rice Lake's RoughDeck CS is Legal for Trade in capacities up to 100,000 pounds. Choose a standard platform size or let Rice Lake help design a RoughDeck CS to your specifications.

Specialty Options for Steel Handling

Get the most from your RoughDeck CS Coil Scale with options and accessories like indicators and remote displays. Or customize your scale with coil cradles and v-tops to optimize your handling needs. The RoughDeck CS can be built to fit existing pit frames, or used in above ground applications.

Above ground installation

Pit mount installation

Standard Features

- NTEP approved for scales sized 4 ft x 6 ft to 10 ft x 20 ft, capacities 25,000 lb to 100,000 lb
- Low-profile, yet heavy duty
- Smooth top plate
- G-Force Tuffseal[®] signal trim junction box conveniently tucked away and protected in one of the load cell pockets
- MVS self-checking mounting system
- Ease of installation and service with top access load cell pockets
- Black epoxy paint
- 20 ft Survivor[®] EL147HE hostile environment load cell cable for connecting to an indicator

Specifications

Description	Capacity	Load Cell and Mount Capacity	Est. Ship Weight
5 ft x 5 ft x 11 in	40,000 lb (20,000 kg)	Qty (4) 50,000 lb each	1,900 lb
5 ft x 5 ft x 11 in	60,000 lb (30,000 kg)	Qty (4) 50,000 lb each	1,900 lb
5 ft x 5 ft x 11 in	80,000 lb (40,000 kg)	Qty (4) 75,000 lb each	1,900 lb
6 ft x 6 ft x 11 in	40,000 lb (20,000 kg)	Qty (4) 50,000 lb each	2,575 lb
6 ft x 6 ft x 11 in	60,000 lb (30,000 kg)	Qty (4) 50,000 lb each	2,575 lb
6 ft x 6 ft x 11 in	80,000 lb (40,000 kg)	Qty (4) 75,000 lb each	2,575 lb

Warranty

- Five-year limited warranty

Approvals

 NTEP Certified 11-068, Class III, 5,000d

Options

- Digital weight indicators
- Remote displays
- Printers
- Coil Cradle
