RL1200 Series

PORTABLE BEAM SCALES

Classic Design, Proven Performance

Portable Beam Scales are well known for time-tested reliability and performance, and Rice Lake's RL1200 Series is designed to complement these demands. For agriculture, warehousing, or general industrial weighing, these cost-effective, cast-iron designs deliver the ultimate in portability and durability. Choose from the mechanical RL1200 or the electro-mechanical RL1200 EM.

RL1200

Well suited to intrinsically safe applications or areas without access to electricity, this all-mechanical design is available in either metric or avoirdupois (lb). The avoirdupois model offers a capacity of 1000 pounds and is also NTEP approved, making it suitable for a wide range of commercial and Legal for Trade applications.

RL1200 EM

Also NTEP approved and suitable for Legal for Trade applications, the RL1200 EM offers the added convenience of the IQ plus 390 digital weight display. The battery-powered 390 lets users easily read weight values, zero, tare, toggle between units, and transmit weight to an optional printer.

Standard Features

RL1200 and RL1200 EM

- NTEP Certified
- Cast iron construction
- Heavy-duty wheels for portability

RL1200

- Locking screw knob on poise
- Slotted cast iron counterpoise weights, marked to scale capacity
- Weights and hanger
- Nickel plated steel beam with engraved brass insert

RL1200 EM

- Handle for portability
- IQ plus 390-DC indicator

Specifications

Capacity:	1,000lb or 500kg
Construction:	Cast-iron platform, base and levers
Platform Dimensions:	24 in (L) x 18 in (W)
Warranty:	One-year limited warranty

Approvals

NTEP CC 93-004 Class III
2,000 div (Avoirdupois Beam Only)
